#### Note 1 - Organization and Nature of Business

T.S. Phillips Investments, Inc. (the "Company") is a broker-dealer in securities registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company operates under SEC Rule 15c3-3(k)(2)(ii), which provides that all the funds and securities belonging to the Company's customers would be handled by a clearing broker-dealer. In accordance with the provisions of this rule, the Company executes all of its customers' transactions on a fully-disclosed basis, through an unaffiliated clearing broker-dealer which carries the accounts and securities of the Company's customers. The Company's customers consist primarily of individuals located in Oklahoma.

#### Note 2 - Summary of Significant Accounting Policies

#### **Basis of Presentation**

The financial statements present the financial position and results of operations of the Company. The Company is engaged in a single line of business as a securities broker-dealer, which composes several classes of services, including principal transactions and agency transactions.

#### **Recently Adopted Accounting Pronouncements**

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers: Topic 606, to supersede nearly all existing revenue recognition guidance under GAAP. ASU 2014-09 also requires new qualitative and quantitative disclosures, including disaggregation of revenues and descriptions of performance obligations. The Company adopted the provisions of this guidance on January 1, 2018 using the modified retrospective approach. The Company has performed an assessment of its revenue contracts and has not identified any material changes to the timing or amount of its revenue recognition under ASU 2014-09. The Company's accounting policies did not change materially as a result of applying the principals of revenue recognition from ASU 2014-09 and are largely consistent with existing guidance and current practices applied by the Company.

#### **Brokerage Commissions**

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to the customer.

#### Distribution Fees - Mutual Funds and Insurance and Annuity Products

The Company earns revenue for selling mutual funds, variable annuities and insurance products. The performance obligation is satisfied at the time of each individual sale. A portion of the revenue is based on a faxed rate applied, as a percentage, to amounts invested at the time of sale. The remaining revenue is recognized over the time the client owns the investment or holds the contract and is generally earned based on a fixed rate applied, as a percentage, to the net asset value of the fund, or the value of the insurance policy or annuity contract. The ongoing revenue is not

#### Note 2 - Summary of Significant Accounting Policies (continued)

recognized at the time of sale because it is variably constrained due to factors outside the Company's control including market volatility and client behavior (such as how long clients hold their investment, insurance policy or annuity contract). The revenue will not be recognized until it is probable that a significant reversal will not occur.

#### Receivables

Receivables from broker-dealers and clearing organizations are with the Company's clearing broker-dealer which is located in St. Louis, Missouri. These receivables are generally collected in full in the month following their accrual. As such, management has not recorded an allowance for doubtful accounts on these receivables. Management records an allowance for bad debts based on a collectability review of specific accounts. Any receivables deemed uncollectible are written off against the allowance.

#### Statement of Cash Flows

For purposes of the statement of cash flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than ninety days that are not held for sale in the ordinary course of business.

#### Furniture and Equipment

Furniture and equipment are stated at cost, less accumulated depreciation. Depreciation is provided on a straight-line basis using estimated useful lives of three to seven years.

#### **Income Taxes**

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of assets and liabilities for financial and income tax reporting. Deferred tax assets and liabilities represent future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred taxes are also recognized for operating losses that are available to offset future taxable income, subject to a valuation allowance.

Tax benefits associated with uncertain tax positions are recognized in the period in which one of the following conditions is satisfied: (1) the more likely than not recognition threshold is satisfied; (2) the position is ultimately settled through negotiation or litigation; or (3) the statute of limitations for the taxing authority to examine and challenge the position has expired. Tax benefits associated with an uncertain tax position are derecognized in the period in which the more likely than not recognition threshold is no longer satisfied. Any potential interest and penalty associated with a tax contingency, should one arise, would be included as a component of income tax expense in the period in which the assessment arises. The Company's income tax returns are subject to examination by over the statues of limitations, generally three years from the date of filing.

#### Note 2 - Summary of Significant Accounting Policies (continued)

#### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Actual results could differ from those estimates.

#### **Deferred Rent and Lease Incentives**

The Company has entered into a non-cancelable lease agreement for its office. The lease contains fixed escalations of the minimum annual lease payment during the original term of the lease. The Company recognizes rental expense on a straight-line basis over the lease term, and records the difference between rent expense and the amount currently payable as deferred rent. Deferred lease incentives include construction allowances received from landlord, which are amortized on a straight-line basis over the lease term as a reduction of rent expense.

#### Recently Issued Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases, which establishes a right-of-use model that requires a lessee to record a right-of-use asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with the classification affecting the pattern of expense recognition in the statement of operations. The Company expects to adopt the provisions of this guidance on January 1, 2019. The right of use asset and corresponding lease liability for these leases will be recognized on the Company's balance sheet upon adoption. The Company is evaluating the impact that ASU 2016-02 will have on its related disclosures

#### Note 3 - Deposits with and Receivable from Clearing Broker-Dealers

Deposits with broker-dealers include cash required to be maintained at the clearing broker-dealer for clearing and trading activities. Receivable from clearing broker-dealer is comprised of commissions and other items. Such amounts are normally collected within five days after month end. Receivables from clearing and other broker dealers were \$206,884 and \$235,506 at December 31, 2018 and 2017, respectively.

#### Note 4 - Furniture and Equipment

A summary of furniture and equipment at December 31, 2018 is as follows:

	Furniture and fixtures	\$ 26,813
	Equipment	105,415
	Leasehold Improvements	<u>254,996</u>
		\$309,374
1 666.	accumulated depreciation and amortization	175,014
LCGG,	accumulated depreciation and amortization	
		<u>\$212,210</u>

#### Note 5 - Defined Contribution Plan

The Company has a defined contribution retirement plan covering substantially all of its employees. The benefits are based on each employee's compensation and amounts the employee elects to contribute to the plan. The Company matches the employee's contribution up to 3% of the employee's compensation. The employee is fully vested in the employer's contribution. The Company expensed costs of \$11,532 for the year ended December 31, 2018.

#### Note 6 - Commitments and Contingent Liabilities

#### Financial Instruments with Off-Balance-Sheet Risk

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss. The majority of the Company's transactions with off-balance sheet risk are short-term in duration.

#### **Indemnification and Termination Charges**

The Company is required to indemnify its clearing broker/dealer if a customer fails to settle a securities transaction, according to its clearing agreement. Management was neither aware, nor had it been notified of any potentially material indemnification loss at December 31, 2018.

The Company entered into an amendment to its clearing agreement effective April 1, 2017 with a five year term. If the Company terminates the agreement before the end of the five years, the Company is subject to a cancellation charge ranging from \$100,000 in the first year to \$50,000 in the fifth year of the agreement. After such time, there is no termination charge.

#### Note 7 - Concentration Risks

The Company has a relationship with a multi-branch regional bank that allows it to have branches in their banking facilities. A portion of the Company's securities business is conducted through these branches. If the relationship is terminated the Company may be exposed to risk.

The Company maintains its cash in bank deposit accounts that, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts and does not believe it is exposed to any significant risk.

#### Note 8 - Operating Lease

The Company has entered into a non-cancelable lease agreement for its offices. Rent expense for the year was \$0. The office space lease expires February 2025. Future minimum lease payments required under the leases are as follows:

2019	118,830	}
2020	119,580	
2021	121,830	į
2022	122,580	
Thereafter	<u>281,805</u>

2020	25,950
2021	25,950
2022	25,950
Thereafter	58,388

\$ 162,188

#### Note 9 - Related Party Transactions

To the Board Members T.S. Phillips Investments, Inc.

We have reviewed management's statements, included in the accompanying Exemption Report Management Statement Regarding Compliance with Certain Exemption Provisions Under Rule 15c3-3 of the Securities Exchange Act of 1934, in which (1) T.S. Phillips Investments, Inc. identified the following provisions of 17 C.F.R. §15c3-3(k) under which T.S. Phillips Investments, Inc. claimed an exemption from 17 C.F.R. §240.15c3-3:'(2)(ii) (the exemption provisions) and (2) T.S. Phillips Investments, Inc. stated that T.S. Phillips Investments, Inc. met the identified exemption provisions throughout the most recent fiscal year without exception. T.S. Phillips Investments, Inc.'s management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about T.S. Phillips Investments, Inc.'s compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
